

Morgan Stanley

What Will You Create?

Valuation Risk Internship

Given the continued spread of COVID-19 (coronavirus), all interviews will be conducted by phone or virtual connection to protect our candidates and employees.

Location: Budapest office

Start date: Continuous

Contract: 20/30/40 hours-a-week contract (flexible)

Duration of program: 6-12 months, rotation opportunity within teams after 6 month

We offer:

- Work in the Finance department of one of the world's top tier Financial Institutions and gain **first-hand insight** into the Investment Banking business
- Work with and obtain **in-depth knowledge** of a wide-range of financial products
- Engagement with the **offices globally**, including New York, London, Hong Kong and Tokyo
- Open minded and **welcoming environment**, where your ideas are taken seriously
- Opportunity to **start remotely** and receive an offer for an internship **extension/full-time role** upon graduation

You will:

- Get exposure to one or more of these **Asset Classes**: Equity, Commodities, Credit, Lending and Interest- and FX rates
- Provide support in the independent **valuations processes** of a global portfolio of financial assets using external data sources and internal models
- Learn about **pricing and assessing market risk** through the use of valuation and risk models
- Understand **global financial markets**, follow market movements and comprehend the impact on the portfolio and firm

You have:

- **Ongoing BSc (or above)** studies in Finance/Economics/Accounting or other quantitative fields
- **Interest in** financial markets and products and **eagerness** to learn more
- Problem solving skills with which you can apply **logical thinking** to manage and prioritize competing tasks
- Familiarity with **Excel** – VBA knowledge is an advantage
- Good command of spoken and written **English**

Team Profile: Morgan Stanley Valuation Control provide an independent valuation opinion across the entire spectrum of financial instruments within the firm's sales and trading inventory and proprietary investment portfolio, ranging from vanilla products to the most complex structured and derivative transactions. The team leverages its diverse quantitative skill set and intimate product expertise to act as a guardian and approver of valuation methodology. The group's key clients are senior trading management and senior Finance management.

The team is mandated to perform an independent valuation assessment on the diverse range of financial products. This process involves the certification of models and their valuation methodologies, testing for adherence to such methodologies, evaluating internal valuation marks against external benchmarks, identification and resolution of valuation discrepancies, and communicating a valuation assessment to senior management. The team is also involved in the continuous enhancements of the valuation control infrastructure with a view towards global and cross-product standardization.

About us: Morgan Stanley is a global financial services firm and a market leader in investment banking, securities, investment management and wealth management services.

At Morgan Stanley Budapest, we are shaping the future of our global business and contributing to our local community. Our team works across numerous areas, including Technology, Mathematical Modeling, Finance, Risk Management, Operations and Data & Analytics from our new state-of-the-art offices near the Danube and our City Gate office in the heart of the city center.

Application:

If you are interested in any of the above opportunities, please apply [here](#) by submitting your English CV.

Although application deadlines are in place, candidates are advised to apply early as we recruit on an ongoing basis
